Dot Net V2.2 and Service Pak 2
Dot Net V3.5
All customer supplied hardware should be installed prior to the implementation by Viztek
Viztek must be provided with a local administrator account for all customer supplied workstations.
If a customer or dealer purchases their own hardware, there will be an additional install expense (hourly) for time spent resolving compatibility issues. While it is Viztek's goal to provide software for existing computers, we cannot accept responsibility for third-party software conflicts.
Customer is responsible for mal-ware and anti-virus protection.
MS Internet Explorer 7 or above
Antivirus and Malware protection is the responsibility of the customer.
